

### SIGNICADE A-FRAME

The Signicade is one of our best selling exterior sign displays. This durable signage features snap-off plugs that make it easy to fill with sand or water for ballast. The unit holds 24" x 36" signs on each side that are easy to change. Also includes a molded-in handle and hinges that lock for increased stability. Well nuts available for easy sign installation.

Description	Display Size (W x H)	Viewable Size (W x H)
Signicade	26" x 45"	24" x 36"

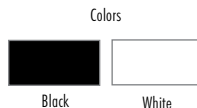

### SIGNICADE DELUXE A-FRAME

The durable and portable Signicade Deluxe is perfect for outdoor uses. Change signs in seconds without the hassle of tape or screws. Legs allow for sand or water to be added to create ballast. Displays two signs and easy to set-up with locking hinges for additional stability.

Rigid Sign slides easily into slots for a secure fit

Description	Display Size (W x H)	Viewable Size (W x H)
Signicade Deluxe	27" x 46.375"	24" x 36"

### SIGNICADE SIGN KIT

Customize your Signicade as often as you wish without having to print new graphics. Letters and numbers slide in and out of plastic grid.

Kit Includes:

- 314 - black 4" letters, symbols and red numbers
- 22 - red 8" numbers and % symbol
- 2 - red 9" double-sided headers – Sale and Special

Signicade Sign Kit

Simpo Sign II simply slide sign into display

### SNAP A-FRAME

These light-duty A-Frames weigh half as much as the popular Signicade, and are perfect for when you have to move your sign frequently. The Simpo Sign II offers easier graphic installation by simply sliding into frame grooves.

Simpo Sign I

Description	Display Size (W x H)	Viewable Size (W x H)
Simpo Sign I	23" x 33.5"	22" x 28"
Simpo Sign II	34" x 36"	22" x 26.75"

### SNAP A-FRAME

The Snap A-Frame is the perfect solution when you require an attractive temporary display. Perfect for conventions and walkways, the Snap A-Frame features the fastest and easiest way available to change graphics on the fly and easily folds up for storage.

Description	Display Size (W x H)	Viewable Size (W x H)
Snap A-Frame	25" x 45"	23.62" x 33.34"

### FOLD-AWAY COMPACT A-FRAME

The Fold-Away Compact A-Frame is lightweight and compact. It collapses down to a compact size for easy storage and transport. Simply add two corrugated signs and you have a durable, temporary sign that can be used both indoors and outdoors.

Description	Display Size (W x H)	Viewable Size (W x H)
Fold-Up A-Frame	24" x 44.5"	24" x 33"

## OUTDOOR HORIZONTAL A-FRAME

Stand out from the crowd at outdoor events with the Horizontal A-Frame. This temporary outdoor banner display sets up quick without the need of tools. The A-Frame supports two banners and includes the bungee cords needed to securely fasten your banners. To prevent any movement while in use, ground stakes are also included. All parts are packaged in a convenient nylon carrying case and available in two sizes.

Description	Display Size (W x H x D)	Viewable Size (W x H)
Small	51" x 38" x 24.75"	46" x 33" With #2 Grommets
Large	101" x 38" x 24.75"	94" x 33" With #2 Grommets

Free Carrying Case!

## OUTDOOR RIGID SIGN BASE

Made of durable plastic, the Outdoor Rigid Sign Base provides a unique yet simple way to display rigid signs outdoors. Fill the base with water to provide a stable display. Accepts rigid media such as corrugated plastic from 4 mil to 10 mil thick.

Description	Display Size (W x H)
Outdoor Rigid Sign Base	24" x 36"

## EASY SLIDE ANGLE IRON FRAME

This best selling exterior sign frame is made from heavy-duty one foot flat steel iron and really stands up to the elements. Changing signage is a snap, simply slide in a rigid substrate up to 6 mm thick and it stays put. No hardware required and no pieces to lose.

Description	Display Size (W x H)	Viewable Size (W x H)
Easy Slide Angle Iron Frame	24" x 41"	24" x 18"

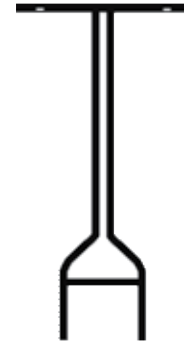

Displaying signage is as simple as sliding it into the frame

## T-STAKE

The T-Stake allows you to attach practically any size rigid substrate to the top bar using two screws. A great all-around solution to keep on hand for a variety of installs.

Description	Display Size (W x H)	Viewable Size (W x H)
T-Stake	17.5" x 42"	Max: 24" x 18"

## SUPERSTRONG

The strongest A-Frame available, the Superstrong is made of 1/2" black powder coated angle iron. It even includes a carrying handle for easy transport.

Description	Display Size (W x H)	Viewable Size (W x H)
Superstrong I	24.5" x 19.5"	24" x 18"
Superstrong II	24.5" x 42"	24" x 36"

### FOUR SEASON DUAL TRAK DISPLAY

Attracting attention with over 7 feet of graphics, outdoor messages are sure to be noticed. The spring mounted base offers flexibility in light winds and the wide footprint offers maximum stability.

- Includes complete hardware and tools for assembly
- Steel frame design with steel flex springs
- Includes nylon carrying case

Spring mounted base flexes in the breeze

Description	Viewable Size (W x H)
Four Season Dual Trak Display	23.6" x 76.8"

### FOUR SEASON GLIDER BANNER DISPLAY

Raise the bar on outdoor banner displays, named for its ability to glide easily in strong breezes, the mechanism allows your message to take center stage without wind pressure bowing the banner. Fill the sturdy base with sand or water for ballast. The Glider is highly adjustable from 24" to 40" in width and from 60" to 78" in height.

Description	Viewable Size (W x H)
Four Season Glider	24"-40" x 60"-78"

### OUTDOOR ANCHORED BANNER FRAME

Designed to give more permanent advertising options while offering the versatility to change banners when needed. The strong aluminum frame can be bolted down into concrete for use on drive-thru islands and sidewalks. The crossbars adjust from 13½" to 23½" wide in 1" increments, while offering three heights - 72", 73" & 74". Banners change out quickly with the snap lock horizontal bars providing the opportunity to change banner messages with the seasons or for special promotions.

Description	Display Size (W x H)	Viewable Size (W x H)
Outdoor Anchored Banner Frame	Max-26" x 76"	13.5" to 23.5" w (1" increments) x 72", 73", 74" h

### SPRING FLEX BANNER FRAME

The Spring Flex Banner Frame's perfect design allows your graphics to flex in the wind on a spring mounted frame without any additional ballast. Simply tie down the edges of your banner to the frame to attach. Banners with grommeted holes are recommended to prevent damage.

- Light weight and easy to move

Attach grommeted banner with tie downs

Description	Display Size (W x H)	Viewable Size (W x H)
Spring Flex Banner Frame	32" x 51" x 48" D	24" x 44" (ea.) - 2 banners or 24" x 90" - 1 banner

## IN-GROUND BANNER FRAME

The In-Ground Banner Frame is easy to assemble and store. All the pieces of its lightweight frame simply snap together for quick assembly. A stronger solution than the In-Ground Banner Post, this silver aluminum frame features an additional pipe across its top. Perfect for use as real estate signs, political banners, events and construction sites.

Description	Pole Heights	Viewable Size
In-Ground Banner Frame	5' or 8'	For use w/banners 4' - 20' W x 4'-5' H

## IN-GROUND BANNER POST

This kit is a quick and easy solution for installing in-ground banners. It's great for informational signs, real estate signs, recreational trail markings, parking lot signs and construction sites. The fiberglass-like posts are 75% lighter and five times stronger than steel. Plus, they are maintenance free and will never rust or need painting.

Description	Pole Height	Viewable Size
In-Ground Banner Post	6'	For use with banners up to 4' High

## FOUR SEASON FLEX SIGNS

Quick graphic changes, coupled with the strong spring mechanism provides a display option like no other. The snap frame feature makes changing graphics as easily as opening and closing the edges. A sturdy footprint ensures the display will not tip. For added durability or if your signage needs to be moved frequently, the easily portable ballast base option is available.

Wheels on the Ballast Base make it easy to change your signs location

Snaps open for quick graphic changes

The Ballast Base can be filled with water or sand

Description	Display Size (W x H x D)	Viewable Size (W x H)
Four Season Flex Sign	24" x 46" x 29"	23.4375" x 33.125"
Four Season Flex Sign w/Ballast Base	31" x 48" x 20"	23.625" x 33.4375"

## CURB FLEX SNAP FRAME

Set up an outdoor sign and forget about it. The Curb Flex Snap Frame features both flexible springs and heavy duty base, insuring your sign will not tip over even in the windiest weather. The snap open frame makes graphic changes equally worry-free.

Snap open frame makes graphic changes easy

For installations that do not require a Spring Arm Bracket, the Premium Bracket without Spring Arm offers the same stainless steel sleeve to lengthen the life of the rod. For the longest lasting installations, our Premium Bracket system is the best choice.

## PREMIUM SPRING ARM BRACKET SYSTEM

Patent #6,378,820

Spend more time enjoying the banner lined street and less time installing the banners. Our Spring Arm Bracket System makes installing and changing banners so much easier. Simply flex the rod, slip off the banner and slip on a new one. What's more, once the banners are mounted, they last longer. The patented stainless steel spring arm design bends up to 60 degrees to deflect the strongest winds. This flexibility helps maintain the integrity of the poles because it keeps the wind load off.

Description	Viewable Size
Premium Spring Arm Bracket System - Single Option	Up to 30" W
Premium Spring Arm Bracket System - Double Option	Up to 30" W

## CUSTOM BOULEVARD BANNERS & IMPRINTING

Let us help you customize the look of your Boulevard Banners. We'll convert your graphics into dramatic full-color, double-sided digitally printed 18 oz. opaque banners. Standard 3" pole pockets are added on the top and bottom so you can easily attach them to the bracket system. Banners can also be imprinted on Poly-Cotton Banner Material.

Dressing up Main Street is easy to do with our Banner Bracket System.

All brackets are single or double banner brackets

## VERSATILE BRACKET SYSTEM

This state-of-the-art system is designed to withstand the elements. The base is made of rust-free cast aluminum with fiberglass arms. The fiberglass arms will flex in strong winds—transferring some of the wind load off the banner.

### Product Features:

- Cast aluminum base will not rust
- Unique base design will fit square, round or multi-sided poles
- A 1° cant has been engineered into the base, top and bottom to keep the banner tight
- Fiberglass arms for strength and reduction of wind load on the banner
- Stainless steel bands for easy installation

Description	Viewable Size
Versatile Bracket System - Single Option	18", 24", 30" or 36"
Versatile Bracket System - Double Option	18", 24", 30" or 36"

## WALL MOUNT BRACKET

A Vertical Wall Mount Bracket makes it easy to install banners on walls and other flat surfaces. Bracket is 3" W x 5" H.
